[The Padagogy Wheel AI Version 7](#) : This Document is a helpful resource when using the Padagogy Wheel for building courses and workshops. The AI version of The Padagogy Wheel was published in LinkedIn in Sept 2024 as "**[EXCITING NEWS](#)**".

1. RESEARCH

[ChatGPT](#)

ChatGPT by OpenAI is an advanced conversational AI tool that can assist with research, generate ideas, and provide detailed responses to complex queries. It is available for free with limitations on message volume per session, while the Pro plan provides faster responses and access to the latest models like GPT-4.

[YouChat](#)

YouChat is a conversational AI integrated into the [you.com](#) search engine. It provides real-time, AI-driven answers alongside web search results. It is free to use but includes limits on usage per session to maintain performance.

[Abacus](#)

Abacus offers tools for building and deploying machine learning models, specializing in real-time AI decision-making. A free plan allows for limited usage of model training and deployment features, while premium plans scale up in data and functionality.

[Perplexity](#)

Perplexity is a research-focused AI that provides concise and well-cited answers to questions, offering credible references for deeper exploration. The free version supports basic queries but might restrict complex multi-turn interactions.

[Copilot](#)

GitHub Copilot is an AI-powered coding assistant that suggests lines of code or functions directly within IDEs like Visual Studio Code. It offers a free trial, after which subscription plans are required for continued access.

[Gemini](#)

Gemini provides AI-driven tools for financial analysis and cryptocurrency management. A free version offers basic insights, but advanced analytics and integrations require paid subscriptions.

2. IMAGE

[Fotor](#)

Fotor is an AI-powered photo editing and graphic design tool, allowing users to create professional-looking visuals. It offers a free version with basic features, while advanced editing tools and templates are available in the Pro version.

[Stability AI](#)

Stability AI is known for its text-to-image generation models like Stable Diffusion, enabling users to create stunning visuals from textual descriptions. It is free for personal use but has limits on the number of images generated; commercial licenses require payment.

[Midjourney](#)

Midjourney is a popular AI art generator producing high-quality, unique digital art from textual prompts. A free trial is available but restricts users to a small number of images before requiring a subscription.

[Microsoft Designer](#)

Microsoft Designer simplifies graphic creation with AI-powered suggestions for layouts, fonts, and colors. Free plans include basic designs, while premium features require a Microsoft 365 subscription.

[RETURN TO CONTENTS](#)

3. COPYWRITING

<p>Rytr Rytr helps generate content for blogs, ads, emails, and more using AI-driven templates. It offers a free plan with a monthly character limit; the premium plan removes these caps and unlocks advanced features.</p>	<p>Writesonic Writesonic is a versatile AI writing assistant for creating blogs, product descriptions, and more. It offers a free plan with limited credits and paid plans for higher usage and access to premium templates.</p>
<p>Copy AI Copy AI assists with creating engaging marketing copy, social media content, and product descriptions. The free version allows up to 2,000 words per month, while paid plans provide unlimited generation.</p>	<p>Adcreative AI Adcreative AI specializes in generating high-performing ad creatives for digital marketing. The free plan offers limited downloads and analytics, while subscriptions unlock higher volumes and advanced insights.</p>

4. WRITING

<p>Jasper Jasper is a writing assistant tailored for marketing, content creation, and creative writing. It offers a free trial, with paid plans providing access to advanced templates and unlimited word generation.</p>	<p>HIX AI HIX AI supports various content types, from emails to long-form articles, using advanced natural language processing. The free version has limited daily use, with premium plans offering more robust options.</p>
<p>Jenny AI Jenny AI is a writing companion focused on academic and technical writing, offering citation integration and structured drafts. The free version has limited projects, while paid plans support expanded access.</p>	<p>TextBlaze TextBlaze provides text automation through snippets, improving productivity for repetitive tasks. The free version allows a limited number of snippets; premium plans offer more storage and advanced automation.</p>
<p>QuillBot QuillBot is a paraphrasing and summarizing tool ideal for academic and professional use. It has a free version with limited rephrasing modes, while the premium plan offers extended features and integration options.</p>	

[RETURN TO CONTENTS](#)

5. WEBSITE

<p>10Web 10Web provides AI-driven website creation and hosting, offering automated WordPress setup. The free version supports basic site-building with limits on storage, while paid plans include advanced customization.</p>	<p>Durable Durable is an AI-powered website builder designed for small businesses, focusing on simplicity and speed. A free plan offers basic tools, while advanced features like custom domains require a subscription.</p>
<p>Framer Framer combines website design and prototyping in an AI-driven platform. It has a free tier with limited projects and storage; premium plans unlock advanced animations and integrations.</p>	<p>Style AI Style AI assists in creating visually appealing website designs using AI-driven templates and customizations. The free version includes limited templates; premium plans unlock advanced design capabilities.</p>
<h2>6. VIDEO</h2>	
<p>Klap Klap simplifies video editing with AI features like auto-captions and smart trimming. It offers a free plan with limited exports, while paid plans provide higher quality and advanced editing tools.</p>	<p>Opus Opus AI generates video content from text, ideal for storytelling or marketing. The free plan supports short video creation with watermarks; premium tiers remove branding and extend duration.</p>
<p>Eightify Eightify summarizes video content into concise highlights using AI. It offers a free plan with limited processing, while paid versions support higher video lengths and advanced analytics.</p>	<p>InVideo InVideo is a video creation platform offering AI templates for marketing, education, and more. A free plan includes basic features and watermarked exports, while premium plans unlock branding removal and advanced features.</p>
<p>HeyGen HeyGen specializes in creating videos with AI avatars and text-to-speech capabilities. The free version includes watermarked outputs, while paid plans offer higher-quality exports and additional avatars.</p>	<p>Runway Runway is a creative suite for video editing and special effects powered by AI. The free version allows limited exports, while subscriptions provide more tools and higher resolution.</p>
<p>ImgCreator AI ImgCreator AI generates animated visuals from text, suitable for marketing and storytelling. It offers free credits with a monthly cap, while paid tiers provide higher-quality outputs.</p>	<p>Morphstudio.xyz Morphstudio uses AI to create and animate 3D avatars. The free version supports basic features with limited exports; paid plans unlock advanced modeling tools and animation effects.</p>

[RETURN TO CONTENTS](#)

7. MEETING

[Tldv](#)

Tldv is an AI-powered meeting recorder and transcription service that integrates with platforms like Zoom and Google Meet. It allows users to record meetings, transcribe conversations, and highlight key moments for easy reference. The free version offers limited recording hours per month and basic transcription features, while premium plans provide extended recording time, advanced analytics, and team collaboration tools.

[Otter](#)

Otter.ai provides AI-driven transcription services for meetings, interviews, and lectures, offering real-time transcriptions and collaborative note-taking. The free plan includes 300 monthly transcription minutes and basic features, while paid plans offer more transcription minutes, advanced export options, and integration capabilities.

[Noty AI](#)

Noty AI is a meeting assistant that transcribes conversations in real-time, summarizes key points, and integrates with various conferencing platforms. The free version provides limited transcription minutes per month and essential features, whereas premium subscriptions unlock additional transcription time, advanced summaries, and integration with other productivity tools.

[Fireflies](#)

Fireflies is an AI meeting assistant that records, transcribes, and searches voice conversations, facilitating easy collaboration and information retrieval. The free tier offers limited transcription credits and storage, while paid plans provide unlimited transcription, enhanced search capabilities, and CRM integrations.

8. SEO

[VidIQ](#)

VidIQ is a YouTube SEO tool that helps content creators optimize their videos for better visibility and engagement. It offers keyword research, analytics, and competitor insights. The free version provides basic features like limited keyword searches and video scorecards, while paid plans offer advanced analytics, bulk processing, and personalized coaching.

[Seona AI](#)

Seona AI is an AI-driven SEO platform that assists in optimizing website content for search engines, offering keyword analysis, content suggestions, and performance tracking. The free version includes limited keyword analyses and basic optimization recommendations, whereas premium plans provide comprehensive SEO audits, competitor analysis, and integration with other marketing tools.

[BlogSEO](#)

BlogSEO is designed to help bloggers enhance their content's search engine performance through AI-generated keyword suggestions, readability analysis, and meta-tag optimization. The free plan offers limited optimization reports per month and basic keyword suggestions, while paid subscriptions unlock unlimited reports, advanced analytics, and personalized content recommendations.

[Keywrds.ai](#)

Keywrds.ai is an AI-powered keyword research tool that generates relevant keywords and phrases to improve SEO strategies. The free version allows a limited number of keyword searches per day, with basic metrics, whereas premium plans provide unlimited searches, in-depth keyword analysis, and competitive research features.

[RETURN TO CONTENTS](#)

9. CHATBOT

[Droxy](#)

Droxy is an AI chatbot platform that enables businesses to create and deploy conversational agents for customer support and engagement. The free version offers basic chatbot customization and limited interactions per month, while paid plans provide advanced customization, increased interaction limits, and integration with various messaging platforms.

[Chatbase](#)

Chatbase allows users to create AI chatbots trained on their own data, facilitating personalized customer interactions. The free plan includes a limited number of messages and basic analytics, whereas premium subscriptions offer higher message quotas, advanced analytics, and priority support.

[Mutual Info](#)

Mutual Info provides AI-driven chatbot solutions for businesses, focusing on enhancing customer engagement and automating support tasks. The free version offers limited chatbot interactions and basic customization, while paid plans unlock advanced features, increased interaction limits, and integration capabilities.

[ChatSimple](#)

ChatSimple is an AI chatbot platform designed to streamline customer service by automating responses to common inquiries. The free tier provides basic chatbot functionalities with limited interactions per month, whereas premium plans offer advanced customization, higher interaction limits, and detailed analytics.

10. PRESENTATION

[Decktopus](#)

Is an AI-powered presentation professional slides quickly, offering design suggestions and content structuring. The free version allows the creation of a limited number of presentations with basic templates, while paid plans provide access to premium templates, customization options, and collaboration features.

[Slides AI](#)

Slides AI assists in generating presentation slides from textual content using AI, streamlining the creation process. The free plan offers limited slide generations per month and basic design options, whereas premium subscriptions unlock unlimited generations, advanced design features, and export capabilities.

[Gamma AI](#)

Gamma AI is a presentation tool that leverages AI to create engaging and interactive slide decks, focusing on visual storytelling. The free version provides limited presentations with basic features, while paid plans offer advanced customization, increased storage, and collaboration tools.

[Designs AI](#)

Designs AI is a creative platform that uses AI to assist in designing logos, videos, banners, and mockups, suitable for presentations and marketing materials. The free tier offers limited design credits and access to basic templates, whereas premium plans provide unlimited credits, premium templates, and priority support.

[Beautiful AI](#)

Beautiful AI is a presentation software that uses AI to automate design, helping users create visually appealing slides effortlessly. The free version allows for a limited number of presentations with basic features, while paid plans offer advanced design options, collaboration tools, and increased storage

[RETURN TO CONTENTS](#)

11. AUTOMATION

<p>Make</p> <p>Make (formerly Integromat) is a visual platform for automating workflows across various apps and services, enabling users to design, build, and automate tasks without coding. The free plan offers a limited number of operations and data transfer per month, while paid plans provide higher operation limits, priority support, and advanced features.</p>	<p>Zapier</p> <p>Zapier connects different applications to automate workflows, allowing users to create "Zaps" that perform tasks automatically between apps. The free version allows up to 100 tasks per month and supports basic workflows, whereas premium plans offer higher task limits, multi-step Zaps, and access to premium apps.</p>
<p>Xembly</p> <p>Xembly is an AI-powered executive assistant that automates meeting scheduling, note-taking, and task management to enhance productivity. Information about a free version is limited; interested users should contact Xembly directly for detailed pricing and feature options.</p>	<p>Bardeen</p> <p>Bardeen automates repetitive tasks by integrating with various web applications, allowing users to create custom workflows and shortcuts. The free plan offers a limited number of automation runs per month, while paid plans provide increased limits, premium features, and priority support.</p>

12. PROMPTS

<p>PromptBase</p> <p>PromptBase is a marketplace where users can buy and sell optimized prompts for various AI models, facilitating better AI-generated outputs. Browsing is free, but purchasing or selling prompts requires creating an account; transaction fees may apply.</p>	<p>Alicent AI</p> <p>Alicent AI provides a suite of tools for prompt generation and optimization, enhancing user interactions with AI models. Details about a free version are limited; users should visit the website for the most current information on pricing and features.</p>
<p>PromptBox</p> <p>PromptBox is a tool that helps users organize and manage their AI prompts across different platforms, streamlining the prompt engineering process. The free plan offers basic organization features with a limited number of prompts, while paid plans provide advanced management tools, increased storage, and integration capabilities.</p>	<p>FlowGPT</p> <p>FlowGPT is a platform that offers a collection of curated prompts for GPT-based AI models, assisting users in generating effective AI interactions. The free version provides access to a limited number of prompts, while premium subscriptions offer unlimited access, advanced prompt engineering tools, and community features.</p>
<p>Snack Prompt</p> <p>Snack Prompt offers a collection of prompts designed to enhance interactions with AI language models, providing inspiration and guidance for users. The free version grants access to a selection of prompts, while premium memberships offer exclusive content, regular updates, and additional features.</p>	

[RETURN TO CONTENTS](#)

13. UI/UX

[Figma](#)

Figma is a collaborative interface design tool that allows teams to create, prototype, and share designs in real-time. The free plan includes unlimited files and collaborators with some limitations on project features, while paid plans offer advanced functionalities, increased storage, and enhanced collaboration tools.

[Uizard](#)

Uizard is an AI-powered design tool that transforms sketches and wireframes into digital designs, streamlining the UI/UX design process. The free version allows users to work on a limited number of projects with basic features, whereas premium plans provide unlimited projects, advanced design options, and team collaboration capabilities.

[UiMagic](#)

UiMagic leverages AI to assist in creating user interface designs quickly, offering tools for prototyping and design customization. Information about a free version is limited; users should visit the website for the most current details on pricing and available features.

[Photoshop](#)

Adobe Photoshop is a leading image editing software used for graphic design, photo editing, and digital art creation. While there is no free version, Adobe offers a free trial period; continued use requires a subscription, with various plans available depending on user needs.

14. DESIGN

[Canva](#)

Canva is an online design platform that enables users to create graphics, presentations, posters, and other visual content with ease. The free plan offers access to a wide range of templates and design tools, while the Pro plan provides additional features like premium templates, brand kits, and expanded storage.

[Flair AI](#)

Flair AI is an AI-driven design tool that assists in creating marketing assets and visual content efficiently. The free version offers limited design credits and access to basic features, whereas paid plans provide increased credits, premium design elements, and advanced customization options.

[Designify](#)

Designify uses AI to automate the creation of professional-quality images, ideal for e-commerce, marketing, and social media. The free plan allows users to process a limited number of images with basic features, while premium subscriptions offer unlimited processing, high-resolution outputs, and additional editing tools.

[Clipdrop](#)

Clipdrop is an AI-powered ecosystem of apps, plugins, and resources for capturing and editing images, facilitating seamless design workflows. The free version provides access to basic tools with limitations on usage, while paid plans offer full access to all features, higher resolution exports, and priority support.

[Autodraw](#)

Autodraw is a free, web-based AI-powered drawing tool by Google. It uses machine learning to suggest improved versions of user-drawn sketches, making it easy for anyone to create polished visuals. The tool is entirely free to use with no registration required. However, it offers limited customization options and lacks advanced design features found in premium tools.

[Magician Design](#)

Magician Design is an AI-powered tool for designers, offering features like text-to-design generation, creative assistance, and design exploration to speed up the creative process. The free version allows access to a limited number of design generations and basic tools, while premium plans unlock unlimited usage, advanced features, and priority support.

[RETURN TO CONTENTS](#)

15. LOGO GENERATOR

<p>Looka</p> <p>Looka is an AI-powered logo generator that enables users to create professional logos by entering their company name and design preferences. The platform offers a free logo generation process, allowing users to design and customize logos. However, to download high-resolution files and gain full ownership rights for commercial use, purchasing a logo package is required.</p>	<p>Designs AI</p> <p>Designs AI provides a suite of creative tools, including a logo maker that uses AI to generate unique logo designs. Users can create and customize logos for free, but downloading the high-resolution files and accessing additional features may require a subscription or one-time payment.</p>
<p>Brandmark</p> <p>Brandmark utilizes AI to create distinctive logos and brand identities. The platform allows users to generate logo previews for free; however, obtaining high-quality files and full usage rights necessitates purchasing a logo package.</p>	<p>Stocking AI</p> <p>Stocking AI offers AI-generated logos and other design assets. Users can generate and view logo designs for free, but downloading high-resolution versions and accessing premium features may require a paid plan.</p>
<p>Namecheap Logo Maker</p> <p>Namecheap's Logo Maker is a free tool that allows users to create and download custom logos without any cost. It offers a variety of templates and customization options, with no apparent limitations on downloads or usage.</p>	

16. AUDIO

<p>Lovo AI</p> <p>Lovo AI is a text-to-speech platform that provides human-like voiceovers for various applications, including audiobooks, videos, and advertisements. The free version offers limited voice options and usage credits, while paid plans unlock additional voices, increased usage limits, and commercial rights.</p>	<p>Eleven Labs</p> <p>Eleven Labs specializes in AI-generated speech, offering realistic voice synthesis for content creators and developers. A free tier is available with limited usage and voice customization options; higher usage limits and advanced features are accessible through subscription plans.</p>
<p>Songburst AI</p> <p>Songburst AI assists musicians and creators in generating music compositions using AI technology. The platform may offer free trials or limited access; however, full access to features and unlimited usage typically requires a subscription.</p>	<p>Adobe Podcast</p> <p>Adobe Podcast is an AI-driven audio editing tool designed to simplify podcast production, offering features like noise reduction and speech enhancement. Adobe provides a free version with basic features, while advanced tools and higher usage limits are available through Adobe's subscription plans.</p>

[RETURN TO CONTENTS](#)

17.MARKETING

[Pencil](#)

Pencil uses AI to generate ad creatives for digital marketing campaigns, aiming to improve performance through data-driven design. A free trial is available with limited creative generations; ongoing access and additional features require a subscription.

[AI-Ads](#)

AI-Ads offers AI-powered solutions for creating and managing advertising campaigns across various platforms. The service may provide free trials or limited access; comprehensive features and extended usage typically necessitate a paid plan.

[Simplified](#)

Simplified is an all-in-one design platform that includes AI tools for creating marketing content, such as graphics, videos, and copy. The free plan offers access to basic features with limitations on exports and team collaboration; paid subscriptions unlock advanced functionalities and increased storage.

[AdCreative](#)

AdCreative provides AI-generated ad creatives to enhance marketing campaign performance. A free trial is available with limited credits; continued use and access to premium features require a subscription.

18. STARTUP

[Tome](#)

Tome is an AI-powered storytelling tool that helps startups create compelling narratives for pitches and presentations. The free version offers limited story creations and basic features, while premium plans provide advanced customization and increased storage.

[Ideas AI](#)

Ideas AI generates startup ideas using artificial intelligence, providing inspiration for entrepreneurs. The platform is free to use, with no apparent limitations on the number of ideas generated.

[Namelix](#)

Namelix is an AI-powered business name generator that suggests brandable names based on user input. The service is free to use, allowing unlimited name generations without any cost.

[PitchGrade](#)

PitchGrade analyzes startup pitches using AI to provide feedback and suggestions for improvement. A free version is available with limited analyses; premium plans offer more in-depth feedback and additional resources.

[Validator AI](#)

Validator AI evaluates startup ideas, providing insights into their viability and potential challenges. The platform offers free assessments with basic feedback; detailed analyses and reports may require a subscription.

[RETURN TO CONTENTS](#)

19. PRODUCTIVITY

<p>Merlin Merlin is an AI-powered productivity tool that integrates with various applications to enhance workflow efficiency. The free version offers limited integrations and features, while paid plans provide full access to all tools and premium support.</p>	<p>TinyWow TinyWow offers a variety of free tools for productivity, such as file conversions, image editing, and text processing. It is entirely free to use, with no registration required, though there might be daily usage limits.</p>
<p>Notion AI Notion AI enhances the popular productivity app by providing AI-driven tools for summarizing, generating content, and automating workflows. The free version includes basic AI features with limited credits, while premium plans offer unlimited AI usage and advanced tools.</p>	<p>Adobe Sensei Adobe Sensei is an AI-powered framework embedded into Adobe products, enhancing tasks like image editing, video production, and document management. It requires a subscription to specific Adobe products, as there is no standalone free version.</p>
<p>Personal AI Personal AI acts as a digital memory assistant, helping users capture, recall, and use their thoughts effectively. A free version is available with limited storage and features, while premium plans unlock higher storage and advanced functionalities.</p>	

20. SOCIAL MEDIA MANAGEMENT

<p>Taplio Taplio is a social media management tool focused on LinkedIn, helping users schedule posts, analyze performance, and grow their network. The free plan includes basic features with limited scheduling capabilities, while premium plans offer advanced analytics and automation tools.</p>	<p>Typefully Typefully assists with creating, scheduling, and optimizing Twitter threads for engagement. A free plan allows limited posts and analytics, while premium subscriptions unlock unlimited posting and advanced insights.</p>
<p>Hypefury Hypefury is a Twitter management tool that automates post scheduling, engagement, and content suggestions. The free version has basic scheduling features, while premium plans offer advanced automation, analytics, and integrations.</p>	<p>TweetHunter TweetHunter is an AI-driven tool for Twitter growth, helping users create viral content and manage their account efficiently. A free trial is available, but ongoing use requires a subscription for full access to its advanced features.</p>

[RETURN TO CONTENTS](#)
